REFINERS BUYERS AT LOWER PRICE

(Special Correspondence News & Callaghan, 99 Wall Street.)

NEW YORK, Dec. 22.—Although holders of Cubas maintained their ideas at 5.27c (4½c basis 96 deg. c.f.) throughout the early part of the week, they only succeeded in disposing of a few small parcels on this basis, and following the sale of 10,000 bags prompt shipment Porto Ricos at 5.14c, Cubas sugars were put forward at the same price (4½c basis 96 deg. c.f.). At this level, however, refiners showed more disposition to buy than has been the case for many weeks, and a fairly active market ensued with all offerings of Cubas on spot, for December and first half January clearance finding ready buyers at 5.14c (4½c basis 96 deg. c.f.), the sales thereof totaling some 90,000-100,000 bags. This increased demand may be attributed to a slightly better business for refined, which combined with the light exports from Cuba and the depleted condition of stocks held by refiners here, caused refiners to become ready buyers for prompt delivery, especially as the price for old crop sugars had dropped to the level which was established for new crops several weeks ago. A limited business was done in February and March shipment Cubas at 5½c basis 96 deg. c.f. (4.90c). At the close, the market has developed further weakness and some 35,000-40,000 bags Cubas in nearby positions sold at 4 1-16c basis 96 deg. c.f., reducing the spot quotation to 5.08c. Porto Ricos are offering in a small way at 5.08c for early January shipment without finding buyers.

Other sales made during the week consisted of Porto Ricos, Philippines and various full duty-paying sugars, as noted below.

The weekly cable from Cuba on Dec. 18 reported 26 centrals grinding, as compared to 55 and 44 centrals at the corresponding dates in 1915 and 1914, respectively. The exports, all to U. S. Atlantic ports, were only 3500 tons, and the stock at shipping ports amounted to 25,500 tons as compared to 16,000 tons and 11,000 tons at the corresponding dates in 1915 and 1914, respectively. Today, Messrs. Willett & Gray report 39 centrals are now grinding.

All refiners adjusted refined prices to the basis of 7.05c less 2 per cent during the week, but it is generally reported that in some instances sugar can be bought on the basis of 6.95c less 2 per cent. A slightly better demand has been in evidence, due to the fact that the trade in nearby territory is entirely bare of sugar, and although there is no disposition being shown to buy beyond immediate requirements, still the urgent needs of the trade has resulted in more buying than has been the case in some time. Although export inquiries are in constant evidence and some small business has been done during the week, no important orders have been placed.

Closing quotations today on the Sugar Exchange are: December 4.18 and 4.20c, January 4.08c and 4.10c, February 3.88c and 3.89c, March 3.82c and 3.83c, and May 3.87c and 3.89c.

Fort Shafter Notes

(Special Star-Bulletin Correspondence.)
FORT SHAFTER, Jan. 10.—Lieut. Col. William Weigel had his examination for promotion before the examining board at Fort Schofield Monday, January 8, and is receiving the congratulations of his fellow officers on his success.

The department hospital just now contains two excellent soccer football players, Priv. Theodore Beaulieu, D Company, 2nd Infantry, who has had a minor operation on his foot, and Burke, the center of the 1st Infantry, whose foot was broken during the 1st Infantry and 32nd Infantry soccer football game at Schofield Barracks on Saturday.

The sounds of the saw and hammer will soon be merry in the cantonment as the packers will start crating the belongings of quite a number of the officers who have just been ordered back to the mainland. Capt. Joseph A. McAndrew and Capt. Lloyd E. Fredendall, who came over with the 2nd Infantry in 1912, have been assigned to the 33rd Infantry on the border and are to leave on the February transport, and 1st Lieut. Adrian K. Polhemus, who is on leave of absence in the states, who goes to the 12th Infantry and will not now return. His possessions will be shipped on the same boat. The other officers, whose foreign service has over-reached the three-year mark, will also shortly receive their orders and the changes and vacancies in the 2nd Infantry will in the near future be many in number.

ARMY ORDERS

Capt. James A. Ulio, 32nd Infantry, is attached to the headquarters company during the absence of Capt. Walter E. Fridgen, 32nd Infantry, who is now on leave of absence.

First Lieut. William H. Bilton, Corps of Engineers, has been ordered from Waimanalo to Fort Shafter in connection with survey work of Oahu and upon completion of this duty he will return to Waimanalo to continue his duties there.

Electrical Sgt. First Class William F. Cooper, Coast Artillery Corps, who has been on duty at the Puget Sound defenses, will sail from San Francisco on April 5 for this department.

The Swiss government decided to favor the single-phase system for electrifying the railroads in preference to the third rail, because it costs 40 per cent less to make the change.

WHAT IS CAUSE OF RHEUMATISM, LUMBAGO, GOUT?

(By Valentine Mott Pierce, M. D.)
Ever since Scheele, in 1775, discovered that uric acid was present in the system, scientific men have been making experimental investigations and it is the almost universal opinion of our best medical men that the presence of uric acid in the system in excess is the cause of rheumatism and gout. When the urate salts are precipitated out of the blood into the solid tissue structure the persons suffer from gout or rheumatism in the muscles and joints, or suffer from lumbago and pain in the back muscles. The first aim of the sufferer should be to get rid of the uric acid, which, in excess, is a poison, and to do this it is well to drink a pint of hot water morning and night—get tablets of Anuric at the nearest drug store and take them before meals regularly. Anuric will do no harm to the system and will carry off the uric acid by stimulating the kidneys. Then tincture of iodine may be painted over the swellings, or in more severe cases hot linseed poultices may be applied to soothe the local symptoms. But most important is it for the sufferer to abstain from red meat, to diet, drink only lemonade or hot water, and take Anuric for a considerable time as it causes a drainage outward of the uric acid and is many times more potent than lithia and usually one finds that it dissolves uric acid as hot water does sugar.—Adv.

STRIKE COSTS CALIFORNIA COMPANY NAVY CONTRACT

(Associated Press by Federal Wireles.)
LONG BEACH, Cal., Jan. 10.—Officials of the California Shipbuilding Company announced last night that they have received notice from the navy department of the cancellation of contracts for the construction of three destroyers for Uncle Sam. The contracts were cancelled at the request of the company because of the strike in the works. The labor trouble started last May and the strikers have the plant picketed, making it doubly hard for the plant to secure labor.

Elisna Swan Cornell, an aged color, one of the heirs of the Henry Green estate, was found dead at his repair bench in Minneapolis, Minn. He already had received \$1800 from the estate.
